HOW TO USE THIS MANUAL

ILLUSTRATION

The illustration gives an exploded view of an assembly, and separate parts and how they fit together. Each part has a number corresponding to “# in IPC column” on the parts list.

PARTS LIST

(1) INDEX NO.

The number that corresponds with a parts number in the illustration.

- When the mark ‘*’ precedes the index number, the parts is a Recommended Spare Parts or a Consumables.
- When a ‘-’ is given in this column, the part is not shown in the illustration.
- When blank, and the QUANTITY and SPECIFICATION are given, a whole of that part is not shown in the illustration or that part is illustrated for detail breakdown in the other page.

(2) COMPOSITION & QUANTITY

This column shows the relationship among units, assemblies, subassemblies, and parts. A unit indicated in a column is assembled by the parts or units indicated in the next right column. The figure is the quantity of the parts needed to assemble into the higher assembly.

(3) SPECIFICATIONS

This column shows part number of the units, or parts.

(4) DESCRIPTION

The part name, applicable device number, and other information are given in this column.

OTHERS

The parts other than the parts marked with ‘*’ in INDEX NO. column are listed in SPARE PARTS LIST REPAIR.

NOTE:

Newly added/changed parts may not be listed in RSPL or SPLR for a while as it takes a few weeks for pricing.
