

FAX/MFC PARTS REFERENCE LIST

**MODEL:
DCP-9010CN / MFC-9010CN
MFC-9120CN / MFC-9125CN
MFC-9320CW / MFC-9325CW**

Read this list thoroughly before maintenance work.

Keep this list in a convenient place for quick and easy reference at all times.

NOTE FOR USING THIS PARTS REFERENCE LIST

1. In the case of ordering parts, it is necessary to mention the following items;

- (1) Code
- (2) Q'ty
- (3) Description
- (4) Symbol (PCB No. etc)

Note: Orders without Parts Code or Tool No. can not be accepted.

< Example >

	(1)	(2)	(3)	(4)	
REF.NO.	CODE	Q'TY	DESCRIPTION	SYMBOL	REMARK

2. Design-changed parts :

If any of the parts is changed, one of the following symbols is indicated in the REMARK column.

CHG(chg) : The parts is changed to a new parts.

ADD(add) : The parts is newly added.

DEL(del) : The parts is deleted.

Symbol in capital letters indicates the latest parts change information in the page.

3. Parts change will be informed by the Parts change information.

4. Parts are subject to change in design without prior notice.

This exploded view diagram illustrates the assembly of a 12-port RJ45 patch panel. The main components are numbered 1 through 9:

- 1:** The main patch panel chassis, featuring 12 RJ45 ports and a central cable management channel.
- 2:** A cable management clip or bracket used to secure the patch panel to the rack.
- 3:** A horizontal rail or support bar that fits into the side of the patch panel.
- 4:** Small mounting pins or spacers used to secure the rail (3) to the patch panel.
- 5:** A mounting bracket or plate used to attach the patch panel to the rack frame.
- 6:** A screw used to secure the mounting bracket (5) to the rack.
- 7:** A rectangular plate or cover that fits over the front of the patch panel.
- 8:** A screw used to secure the front plate (7) to the patch panel.
- 9:** Small rectangular spacers or shims used to align the patch panel within the rack.

The diagram shows the patch panel (1) being inserted into the rack frame, secured by the mounting bracket (5) and screw (6). The rail (3) is then attached to the side of the patch panel using pins (4). The front plate (7) is secured with screw (8), and the cable management clip (2) is used to hold the assembly in place. The spacers (9) ensure proper alignment and spacing within the rack.
